AIRMAN

by SIT

AIRMAN
by SIT

Airman – mango wood/MDF/alu

With AIRMAN we paid special attention to the topics „vintage“ and „factory design“. Our flexible individual pieces create significant accents in all home furnishing sectors. The handmade with alu covered models are individually bolted and remind of the pioneers of aviation. The drawer guidances and hinges made of metal withstand mechanical stress and make the daily use convenient.

ALMIRAH - recycled wood, antique finish

ALMIRAH- the Indian word for wardrobe and the inspiration behind this new series. We could have also simply named it "ancient cabinet door" because the doors have been modeled after the ones typically used in Rajasthan India. Like centuries ago, such elaborate carvings and metal applications are still made with pure craftsmanship. The desired traces of use and the antique finish round off the colonial overall impression. This collection also looks very modern as stand-alone pieces.

ANTWERP

by SIT

ANTWERP -

Mango, MDF and Metal, antique finish

ANTWERP - The city of Antwerp, with its German, Flemish and French influences, offers a multitude of beautiful flea markets where one can also find a myriad of old billboards. We derived the most creative furniture series with this theme in mind. With the used, 60's style look, we've captured the essence of these markets and the passion that the Belgians have for them. Every piece is a "find." The used, vintage look, with traces of wear and skillfully made to look antique, offers that special flare to any ordinary furniture it's combined with.

CORSICA

by SIT

Corsica -

Mango + MDF, black with honey-colored tops

CORSICA – The French dream island in the Mediterranean was ruled by many during its turbulent past. Among others, Vandals, Romans, Goths, Greeks, Italians and the French of course; all have exerted their influence in a way that continues to have an effect on the present. The furniture in this series is almost a mirror image of those times because of the craftsmanship and antique surfaces that contain "traces of the past." All of this and the Mediterranean look of the design is perfect for the country home, cottage, lodge, or winery. You'll feel like you've been transported through time and on vacation in

Speedway - Bad

Recycliertes Altholz, bunt lackiert

SPEEDWAY – the breakneck pleasure of adventurous motorcycle racing was operated in the U.S. and Australia already before the First World War. Around 1928, the races were brought to the UK and Europe. Striking colors serve to distinguish the rival teams and with these same colors, we apply old advertisements on the fronts of our new collection. The combination of old wood and painted colors conjures a brilliant image reminiscent of the beginnings of the sport.

BALI

by SIT

BALI - recycled wood waste, colorfully painted with black recycled metal and traces of use

BALI – on this beautiful island in the warm tropical Indian Ocean, we noticed the first pieces of furniture made from old fishing boats. And with a population of nearly 4 million on an island, these fishing boats are all around. These boats are traditionally painted in different colors representative of Bali's rich and bio diverse nature like the colorful tropical trees including frangipani, bougainvillea or hibiscus, greens found in the rice terraces of Ubud, blue like the sky, and black like cooled lava found in the abundant volcanoes.

All of these colors can be found again in our Bali furniture series. With a clever "eye", the wood is placed "just so" that it recreates a harmonious image. The combination of strong signs of wear with metal results in a one of a kind factory-design.

BLUE
by SIT

BLUE – genuine wood waste, with elaborate carvings and "blue-washed", antique finishes

BLUE - a color, shimmering, eye-catching, represents distance, longing, and the endlessness of the sky. In combination with genuine wood waste from old doors or gates and intricately carved ornaments this furniture in Jodhpur ("The Blue City") is made entirely by hand. Every part is given its own unique look with great attention to detail. When properly integrated into a modern environment, these

BRONX

by SIT

BRONX

Mango black antique varnish

BRONX – The northernmost city district of New York back in the day stood for poverty, unemployment and crime. A new page has been turned for a while now and the Bronx has been "reborn." Many designer labels have established themselves in vacant industrial buildings over the last few years and are increasingly turning the area into a "hotspot" area. Since the 1950s, the film industry has produced more than 80 films, including "The Wanderers" and many others. As a reminder of this time, we have named our new series so. This is INDUSTRIAL DESIGN with a shot of VINTAGE and the desired traces of use. Several styles are available for dining, living rooms, the home office and small spaces.

CEMENT

by SIT

CEMENT

CEMENT – This has to be one of one of the hottest interior design trends of the year. Emanating from the most modern designer lofts in metropolises throughout the world, the trend has spilled over and reached us. Be amazed by the feel of the soft, velvety surfaces that surprise with their warm touch. In addition to practical stools, pedestals and coffee tables, we also offer table tops for an elegant and modern dining room in a number of sizes

Chair Collection

Our upholstered chairs are the perfect partner for your dining area. Cleverly designed, we achieve an assembly that's as easy as pie and a product with tremendous durability. The material thickness is generously measured to stand up to the rigors of every day life. The upholstery is easy to care for and the colors speak to today's "in" lifestyle trends from "natural to modern." (Seat height is about 18.9".) The legs typically have plastic gliders.

CHARLESTON

by SIT

CHARLESTON – upholstered in printed canvas

South Carolina at the beginning of the 20th century, the harbor town of Charleston plays jazz in its bars and pubs. The Charleston, the tune from the musical, *Running Wild*, becomes a world-wide sensation. It was daring and provocative in the earlier moral times of the Prohibition era. Inspired by the pubs that are still authentic today, we revive this mood again in furniture.

Designed to look old, these single pieces offer every ambience that special touch. Even in modern rooms, skillfully staged vintage pieces are often the icing on the cake.

CHINESE

SIT

for young

Program CHINESE – genuine wood waste, colorfully painted

Colors have special meanings in China. Red stands for life, black for money and power, and white for mourning, but we've given these colors a new meaning. For us, white stands for innocence and purity. The handmade painted furniture all have very decorative metal fittings made of solid copper -- a centuries-long tradition. The simplicity and high artistry blows you away and are typical of this type of furniture. The edges and corners are "antiqued" by hand and the surfaces are made to look old so that every piece has a bit more charm than "normal" furniture.

CORAL

by SIT

CORAL

by SIT

Coral - Recycled Teak

CORAL - CORAL - Made from old recycled teak crafted this series provides an immense charm that is far from usual. The wood comes from old barns, houses and rice troughs, and is extremely strong and resistant, given that it has been "well seasoned" over the years. Tanned by the sun and weathered by the wind, only nature can yield the warm and inviting color present in this wood. In combination with the modern handles, the design results in a contemporary and different kind of look that is bound to attract attention.

Corsica -

Mango + MDF, black with honey-colored tops

CORSICA – The French dream island in the Mediterranean was ruled by many during its turbulent past. Among others, Vandals, Romans, Goths, Greeks, Italians and the French of course; all have exerted their influence in a way that continues to have an effect on the present. The furniture in this series is almost a mirror image of those times because of the craftsmanship and antique surfaces that contain "traces of the past." All of this and the Mediterranean look of the design is perfect for the country home, cottage, lodge, or winery. You'll feel like you've been transported through time and on vacation in France.

Country Corner

Massive Pine

In this new series you will find numerous stylistic features from the 17th century, when British puritans settled the Rhode Island area in the North East of the United States for the first time. Just like then, the area today offers an abundance of fish and wood resources as well as pure nature and incredible beauty. Discover this beautiful corner of the world with our COUNTRY CORNER series. More than 30 types made with perfect craftsmanship and individualized antique surfaces offer you a wide range of combinations for dining and living to keep your "gray everyday" at bay. Bring holiday living into your home.

CROSS - recycled teak with metal

CROSS – Recycled teak wood, which has been hand-crafted in cross-form design, comes from old doors, gates and houses. We combine the warm, natural wood with cold metal and create an appealing contrast. The Scandinavian styled furniture for the dining and living room with matching small pieces complete the program. More than 15 different types can be combined perfectly with existing interiors.

DARK ROADIES

by SIT

DARK ROADIES

by SIT

Dark Roadies - Natural Mango wood with very high end metal grips, aluminum trimming and castors

According to Wikipedia, a Roadie is defined as "a person employed by a touring band of musicians to set up and maintain equipment." Instruments, lighting systems, and speakers must be securely packed in specially designed crates. We've copied the modern and very high-end metal fittings, wheels, and handles one-to-one. In combination with natural wood, we've created a furniture series that stands out from everyday life. Because, we know that Roadies have no ordinary life..

DOWNTOWN

by SIT

DOWNTOWN

by SIT

DOWNTOWN -

mango wood + mdf, with metal legs
and covered with aluminium

DOWNTOWN sounds like big city and Manhattan so it was the first thought that came to our mind when we finished the first drafts of this range. We think no furniture made of wood, aluminium and metal can look cooler. And whatever looks good in a designer loft should be the icing of the cake in your home as well.

You can choose from more than 10 different items - from lowboard to bedside cabinet - so you can find easily the suitable furniture for you.

EBONY -

Mango wood und MDF with Brass, Metal,
Copper, Coconut Shell und Bones

Ebony – the perfect mix of materials with large scale variety. Made with various materials from artistically crafted mango wood, MDF, brass, metal, copper, shells of coconut, and camel bones (yes, you read that right), these items are skillfully incorporated into a coherent picture to create an edgy and exceptional piece of furniture that gives your home that special touch.

PS. Camels were discovered in the Indian province of Rajasthan around 80,000, and still retain an enormous status as livestock. Jewelry and knife handles have been made for centuries from their bones.

EDGE

by SIT

EDGE - Acacia Teak Wood with Metal

EDGE - this series shows "edge", or more precisely, the edge of a tree. What has been already very popular and trendy with tables, we now offer as "real furniture". Made of acacia, in its natural shade, in combination with metal accents metal frames and unique craftsmanship, this design is timeless, clean and refined. The dovetail joints on the fronts and the deliberate application of sapwood create an extraordinary look that brings exclusivity and elegance in contrast to the norm.

FOREST

by SIT

FOREST - FSC®- certified (FSC®-C119092)

FOREST - the name stands for the very first of our FSC®-certified (license number FSC®-C119092) products. For several years, we have been working intensively on sustainable forestry. Since 2013, SIT has been FSC certified after passing the appropriate audits, consultations and examinations. FSC®- stands for FOREST STEWARDSHIP COUNCIL® - the organization and gold standard for the systematic certification of responsibly sourced wood products and its product chain to the final consumer. The opportunities to offer certified products made from wood that is good for the environment and socially beneficial continue to expand. At SIT, we are committed to this expansion and the offerings of FSC designs. This is just the beginning.

FORTEZZA

FORTEZZA

by SIT

FORTEZZA - recycled wood

FORTEZZA --the name of the once most powerful fortress in Europe, and the city by the same name located in South Tyrol. Our furniture in this series is inspired by the bronze of this bastion. Made of solid recycled wood and hand-forged iron, skilled craftsmen recreate the elaborate detail work just like centuries ago, without the help of commonly used modern tools. The surfaces, made to look old, transport you immediately to the past. You can almost envision history as it actually occurred 100 years ago. From over 10 different types, you can choose the furniture that suits you, and that stand apart from the humdrum of mass produced goods.

FRIDGE
by SIT

Fridge – Genuine old wood, colorfully painted with refrigerator grips

From old fishing boats, demolished houses, old doors or old gates, one of a kind recycled wood is sourced from India for our FRIDGE series, 60's style. Hand crafted with attention to detail, refrigerator handles are affixed and sometimes the pieces are placed on castors. INDUSTRIAL DESIGN and VINTAGE are reinvented.

The enormous range spans from dining room furniture to small spaces an enormous range, because even the smallest item in this series is enough to spice up any existing ambiance.

GOA - Solid Sheesham

GOA - the smallest Indian state, was a Portuguese colony for about 450 years. It's by no accident that European influences are immediately visible and at the forefront of this collection. The design of the collection reflects past traditional influences and is yet modern and cool at the same time. Worn corners, recessed handles, crazy-cool coffee tables - GOA offers individuality from sustainably grown Sheesham wood. Foregoing state-of-the-art machines, the collection is largely handmade but designed with today's needs in mind. Over 20 types offer choice for living, dining and home office.

HIGHCUBE –

White painted metal with traces of use

HIGHCUBE – That's the term for the largest shipping container that also delivers our furniture from faraway places. These giant metal boxes have "seen" more than any sailor. They have seen the world. Every "tin box" receives its own identification consisting of numbers and letters so that it can be recognized at any time. These standardized containers have been used since 1956 for sea transport. Back then, 58 containers could be loaded on a ship. The newest ships can now hold thousands. Discarded containers are repurposed sometimes as living spaces because they are inexpensive and can be built quickly. For a novel look, now you can add a touch of "cool"

IRON - Mango Wood with Wrought Iron

Authentic design, craftsmanship and natural appearance - this is our new series IRON. The wide variety for cool living with factory flair and Scandinavian touch offers a selection for dining and living room interiors that differ from the norm. The perfectly antique surface is very forgiving and easy to clean. The mango wood, similar to beech, oak or teak, is perfect for making furniture. In India alone, 15 million tons of fruit are harvested every year (!!!).

IVORY -

Mango wood und MDF with Brass, Metal,
Copper, Coconut Shell und Bones

Ivory – the perfect mix of materials with large scale variety. Made with various materials from artistically crafted mango wood, MDF, brass, metal, copper, shells of coconut, and camel bones (yes, you read that right), these items are skillfully incorporated into a coherent picture to create an edgy and exceptional piece of furniture that gives your home that special touch.

PS. Camels were discovered in the Indian province of Rajasthan around 80,000, and still retain an enormous status as livestock. Jewelry and knife handles have been made for centuries from their bones.

JUPITER -

recycled, salvaged wood with metal accents

JUPITER - the largest planet in the solar system is anticipated be very visible in April 2017. Until then, you can beautify your home with our new series under the same name. From old fishing boats, houses, old doors and gates, this unique wood found in India is up cycled with wonderful craftsmanship to create beautiful furniture that exudes warmth and comfort. Like a stroke of luck, which you find here and there at antique markets, these beauties transform every room into a French countryside living oasis, far from the urban hustle and bustle. Crafted with loving detail, these exquisite pieces are bound to the please and are a welcomed alternative to the often heartless and austere techno-look.

KNOB

by SIT

KNOB- natural sheesham

KNOB - the unusual name of this new series of sheesham wood means "button." It stands almost as evidence of the round, wooden button on the front, which is typical of Scandinavian design. Stylish designs. Classic and timeless, the collection is largely made by hand. The wood is transformed yielding soft corners and edges which come after elaborate labor and craft. The surfaces, with their characteristically antique finishes are a throwback to the 60's when this style became "hip" for the first time.

PANAMA – Shesham + Recycled Metal

This "factory-design" series offers more than 40 different types to choose from. Living room, dining room, office or practical small pieces- anything goes! Metal and wood are styled to look "old." Carefully balancing signs of wear with modern craftsmanship, we create a coherent picture. The combination with "typical" modern wares is very appealing. With just a few Panama pieces you can create a completely new interior look and feel with existing pieces.

POMP

by SIT

Pomp -

mahogoni + MDF, mit gold leaf/silver leaf,
glossy lacquered

„Crazy“, „nuts“, „what´s that?“ such are the spontaneous comments from nearly everyone who casts an eye over these furniture for the first time. It was the same for us when we discovered the products by accident on a journey to Indonesia. The gold and silver colored surfaces are truly covered with genuine gold and silver leaf by hand. The lacquered surfaces are lavishly polished by hand.

The large drawers are for added convenience with softclose pull-outs. The decorative fittings add value to every item. Boring was yesterday...

POMPIDOU

We all know the classic look of French palaces and sumptuous manor houses from the country and city. We've conveyed and carry forward this look into modern times with our POMPIDOU line. After all, the handmade mahogany crafted masterpieces, thanks to their pompous charisma, give every home that certain something. The surface is elaborately designed by the creators of these pieces to look antique, creating particularly authentic pieces of furniture which are guaranteed not to be found at every corner.

RATTAN vintage

RATTAN-VINTAGE is the name of our new range of extravagant chairs, armchairs and stretchers. The natural material of the rattan palm is light as a feather yet incredibly stable. It is cultivated in a sustainable way and grows extremely fast. The pieces are bent by hand under steam and heat. The slightly antique looking surface results from leaving the outer peel on every single rattan bar. This leads to an edgy design which fits perfectly to the current trends VINTAGE, LOFT and FACTORY.

RATTAN retro

The great RATTAN RETRO REVIVAL ! In the style of the 60s and therefore cutting-edge. In 6 wonderful colors, light as a feather yet incredibly strong and at the same time at a surprisingly low price. The material of rattan palms grows extremely fast and is bent by hand under steam and heat so it stays especially flexible. With a single armchair or a complete seat group you get a magnificent result with the rest of your interior - which looks all of a sudden so much nicer...

Color end number:

RETRO

by SIT

Retro -

Metal body with mango wood in "used look"

Retro - our new series with a current look. There's hardly a style that's determined the present like this one. Whether it's fashion, architecture, music, or industrial design, RETRO is timeless and reinvented every day. Think about the cars from the 50s that are reimagined and sell so well compared to an everyday, ho-hum car. Our furniture captures these older traditions and characteristics. We combine metal and wood types that are adapted to the needs of the present and the selection is huge. Whether it's a bookshelf, lowboard or desk - you'll find the right eye-catcher that's certain to be the icing on the cake to your decor.

RIVERBOAT -

genuine, salvaged wood, colorfully painted

Our RIVERBOAT collection is made from old fishing boats by hand! We located a small company In India that specializes in transforming discarded fishing boats into the most unique furniture. Every piece of salvaged wood is one-of-kind. With a clever eye, the pieces of salvaged wood are reimagined to recreate a harmonious image. Handmade and without the use of modern tools, each piece has its own personality and charm. The collection goes perfectly with any modern interior when creatively integrated.

Roadies -

Natural Mango wood with very high end metal grips, aluminum trimming and castors

According to Wikipedia, a Roadie is defined as "a person employed by a touring band of musicians to set up and maintain equipment." Instruments, lighting systems, and speakers must be securely packed in specially designed crates. We've copied the modern and very high-end metal fittings, wheels, and handles one-to-one. In combination with natural wood, we've created a furniture series that stands out from everyday life. Because, we know that

ROMA

Stühle by SIT

ROMA Chairs

Chairs made with stainless steel legs and various upholstery covers.

The buffalo leather BONANZA comes from India and is unlike your typical industrial leather. The hide is processed the way it is. All of its natural markings including cracks, lines, wrinkles, and even bug bites are left in on purpose. As a result, each hide is one-of-a-kind and looks unlike any other. These natural markings are usually removed in industrial leathers. We have a different approach to the usual refinement process that results in homogeneous and uniform "quality" and why the colors and look of BONANZA-leathers may vary from chair to chair. As a result, the leather maintains its natural and singular character that we have not found with any other leather. That's how our leather should look!

Our leather doesn't require special care. Over time, the inevitable scratch or stain appears -- we refer to this as patina or use which gives each piece of furniture its own "look."

For a reasonably priced alternative, now there's the new and textured vinyl, VINTAGE, and the elegant, Italian fabric, KISS, which comes in attractive colors.

ROMANTEAK

by SIT

Romanteaka -

unprocessed, recycled, natural teak wood

SIT

Origin and tradition - Country house furniture in colonial style from Indonesia. Since 1996, we have been manufacturing furniture that is strongly influenced by the local people's way of life and which has also shaped us over the years. At the same time, the pieces offer a sense of the past when Indonesia was still under colonial rule.

Raw wood, craftsmanship, foregoing the use of modern tools - that is Romanteaka. We use recycled wood from old barns, demolished houses, old repositories, etc. This helps to protect the environment for you and all of us. Since the colonial era, the design has been heavily influenced by European stylistic elements. Our Romanteaka series supports local businesses and local communities who are at the heart of the entire

RUSTIC

by SIT

Rustic – manual processing of mango wood, antique finish

Furniture made from mango wood have a long tradition in India. After all mango is a cultivated plant with a yearly crop of about 15 Mio t (!!!) fruits only in India. Because of the high density this wood is as suitable for furniture making as beech, oak or teak. For our range "Rustic" the carpenters from the province Rajasthan use just this wood to create this earthy furniture with a touch of antique.

The subject „factory design“ is integrated in this range because the hand-forged fittings and rolls are a reminiscence of the Industrial Revolution.

SAMBA –

Acacia with traces of use

Loving handcraft, style and colonial charm, comfort away from the stresses of modern life: This is harmony between nature and man - today and tomorrow. Made from solid wood just like 100 years ago. Without the use of modern machines, each piece of furniture has artisanal individuality that is rarely available still today.

SAMSON - Oak Beam

Experience the warm and calming spectacle of nature and timeless design. The lateral wood fronts are a sign for artisan manufacturing that showcase the harmonious appeal and interplay between nature and design.

The sophisticated stainless steel handles fit perfectly in the hand. Drawers close gently and elegantly with our SOFTCLOSE-Systems.

Cushioned hinges on the doors allow for a soft and gentle closure every time. Optional lighting enhances the cozy ambiance.

Piece by piece, the oak beams are rendered how nature created them. Just as no two trees are alike, there's only one of each kind of our oak beams in the world. These are strong conditions for a lifelong connection with our designs.

SCANDI -

natural sheesham with painted drawers

SCANDI – Since the dawn of the new millennium, chic minimalism has been at the forefront. Our new series SCANDI combines purist Scandinavian style with style and elegance. The collection is marvelously timeless, clean, cool and refined. No matter whether used as a lowboard or a desk, whether in a dining area or bedroom, the stylish design of these single units brings a touch of exclusivity to every room and a modern update.

SEADRIFT

by SIT

Seadrift -

recycled Teak wood, colonial color tops

SEADRIFT – Our Seadrift collection combines warmth, comfort, style and charm reminiscent of colonial times. Handmade from teak wood, just like it was 100 years ago, this series captivates with its symmetrical proportions and loving details that make all the difference compared to mass produced furniture. The design is strongly influenced from European, stylistic elements. That's why the term (if we wanted to use one) "colonial cottage" is most suitable for these jewels. A variety of options are available for the dining room, living room and home office.

SPA
by SIT

SPA – Distressed Acacia, taupe color, antique finish

SPA – the world famous Spa in the Belgian Ardennes, has style and a slightly morbid charm. The TAUPE color you see there so often in the elegant mansions, hotels, bars and restaurants around the Place Royal comes in the most beautiful shades. Various shades of gray and brown are expertly mixed with pink, sand, and mauve to create a warm, elusive TAUPE which looks just great in our colonial SPA series. The incorporated traces of use give the antique finish the crucial touch. The series offers a wide choice for the dining room, living room, home office and numerous tasteful smaller pieces. Just one stand-alone piece will add value to any

SPEEDWAY

by SIT

Speedway -

Recycled waste wood, colorfully painted

SPEEDWAY – the breakneck pleasure of adventurous motorcycle racing was operated in the U.S. and Australia already before the First World War. Around 1928, the races were brought to the UK and Europe. Striking colors serve to distinguish the rival teams and with these same colors, we apply old advertisements on the fronts of our new collection. The combination of old wood and painted colors conjures a brilliant image reminiscent of the beginnings of the sport.

THALYSA

by SIT

THALYSA - Albesia and teak wood with metal

THALYSA combines nature and design. The one- of-a kind, recycled teak wood is sourced from the most unusual places, including old barns, demolished houses, old rice troughs and more.

The combination of Albesia wood from sustainable sources and modern metal feet results in a timeless, modern look that will look great in 20 years from now. The cubist form with distinctive handles and sophisticated processing of each surface offers a unique contrast to your existing furnishings and adds a special touch to each room.

This&That Diverse

SIT

This & That

TATA Truck, TRACTOR Telephone Table, Tuk TUK Bar and AMBASSADOR Sofa - these are the latest eye-catchers for people who have the courage and desire to break away from the ordinary. On top of that, when these pieces are presented in a quirky and appealing manner, nothing stands in the way of their purchase.

Upcycling at its best - these pieces have been curated with original parts we accumulate from scrap dealers. Up until just a few years ago, the incomprehensible amounts of vehicles that were built, are now continuously being removed from the streets because of increasingly tighter emissions and environmental controls.

The TATA Truck was based on a licensed-built "flat nose" Mercedes, the Tuk Tuk mostly had a Vespa motor and the Ambassador, in 1958, was the first Indian-built car and remained until its production end in 2014 (56 years), virtually unchanged. The wood is also recycled and comes from old doors, gates and fishing boats. And that's how these materials get a new life in our world and make each area a special touch

This & That - lamps

The time is long gone when lamps and lights only brought light into the darkness. With this wide selection you literally show your furniture in the right light. Design and modern technologies are combined with natural materials. Thus these "artworks" fit perfectly to the current furniture trends and give every ambiance the "certain something".

THE WIDE VARIETY - RUGS, PILLOWS, POUFS AND STOOLS REMINISCENT OF 1001 NIGHTS

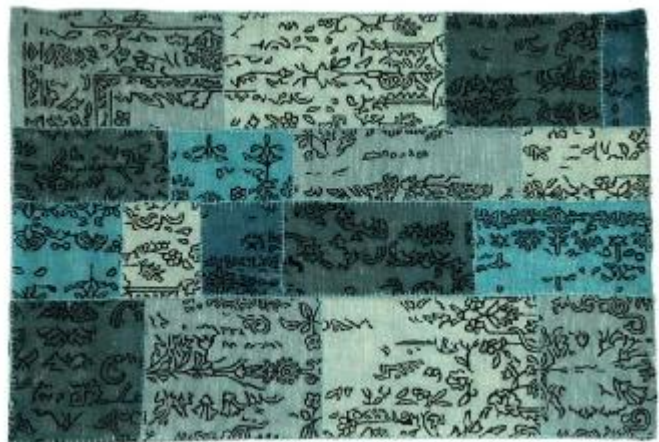

Unusual designs, refined patchwork and gorgeous details that captivate - these items remain in the mind, stand out from the everyday monotony, and boost any environment.

As works of art make their creations more precious, attention is suddenly directed to the floor. Value is instantly in reach.

High-quality materials such as wool, leather, cowhide or denim are transformed through knowledgeable hands into unique carpets, poufs and chairs that serve as "floor treasures" and make all the difference in any tasteful setting.

THOR - Natural Sheesham

THOR – our ZEUS series is named after both gods -- they both stand for lightning and thunder. Thursday was also named after these gods. We think both of these names fit the series perfectly. The massive build and design is powerful and impressive. The sustainably grown Sheesham wood is extremely durable. With minimal care, this furniture is virtually indestructible. The timeless and modern design will remain a classic piece in years to come. Over 10 types to chose from for the living and dining room.

TUBE

by SIT

Tube

Industrial Pipes and Sheesham

TUBE – we have created a modern series made with metal pipes and combined them with solid wood, resulting in a very unique, vintage, factory-style look. Whether for the living room, dining room, office or for smaller areas of the home, everything goes! The intentional traces of use and craftsmanship create a most unique style. Just a few tube elements create an entirely new look in your home to break up the monotony.

VASCO
by SIT

VASCO - recycled old wood

VASCO da Gama - was the Portuguese explorer of the sea route around the Cape of Good Hope to India and. We still encounter many influences from the past and more than 500 years ago when we travel to this region. These influences are visible in our VASCO series -- named after the famous explorer and created with this time period in mind. Made of solid recycled wood and fittings made of brass, these pieces are constructed today according to old designs from centuries ago. The intended traces of use and the antique complete the impressive colonial look. From over 15 different styles, you can easily find the right model for you.

WHITE – genuine wood waste, with elaborate carvings and "white-washed", antique finishes

WHITE – the brightest of all the colors, in western culture, stands for JOY , PEACE and IMMORTALITY. Yet, at the same time, white can be cold and unemotional, which is why we " break " the color slightly and give the surface an antique look. The recycled waste wood with its elaborately carved ornaments is given a esthetically pleasing look. With attention to detail, we create unique pieces with its own look, which catches the eye and brings a new touch to an existing arrangement.

WHITE PANAMA

by SIT

WHITE PANAMA – Mango + Old Metal

This "factory-design" series offers more than 11 different types to choose from. Living room, dining room, office or for small corners and nooks- anything goes! Metal and wood are designed to look antique. Carefully balancing prominent signs of wear with modern craftsmanship, we create a coherent picture. The combination with everyday modern pieces is very appealing. With just a few Panama pieces you can create a completely new interior, look and feel.

WIKING
by SIT

WIKING

One of a kind in the world.

Only one of each table, made with our oak beams, exists in the world. And that's because the beams are handled and rendered the way they grew in their natural environment.

Each wind fracture, every knot, every natural imperfection - all of this appears and is part of each design piece, more or less. That's how it should be.

Oak Beam Dining Table: in oil (-01), smoked oil (-04) and white wash (-10)

Product Number	Description	Dimensions

WOOD & TEXTILES

Mango wood with Jute, Canvas and Leather

WOOD & TEXTILES is the masterful combination of mango, jute, canvas and leather. The USED LOOK with intentional used traces directs your thoughts to long forgotten days. The collection transports the charm of a pre-WWII Parisian flat right into your home and adorns any preexisting design by adding that special little something. With more than 10 different styles to choose from, it's easy to find the right fit -- one you surely won't find on every block.

Zeus -

massive wild oak / wild oak oiled veneer

This furniture is high quality and solidly constructed. With good care, it's indestructible. The timeless design will remain beautiful tomorrow because of the successful pairing with wild oak. Quality begins with the right selection of raw materials and requires loving attention to detail. Sliding drawers and metal hinges withstand the load of every day use. When you want to have a modern and natural look, "Zeus" is always the right choice. The hand-oiled surface is extremely durable and breathable.

ZIGZAG

Mango Wood + MDF with Canvas, Copper Sheet, Leather, Cotton Fabric and Driftwood, Metal Feet

ZIGZAG - according to Wikipedia, stands for "a pattern of small corners at variable angles." We find the name perfectly fitting for our new series, because here too, the pattern bounces back and forth in a lively fashion and in no straight order. The doors and drawers are "studded" with different materials. From driftwood to cowhide, from woven fabric to copper, and even more, everything is arranged by an expert hand in an unusual way to create a look that's simply chic and stands out from the boring monotony. Over 10 different styles to choose from. ZIGZAG will add that extra "pizazz" to your existing interior arrangement.
